HARMFUL ECOTOXIC

AGPRO BIG SPREAD ORGANO

Horticultural Organosilicone

Contains a proprietary organosilicone/surfactant blend.

An organosilicone surfactant/wetting agent to enhance the spreading and foliage deposition in horticulture, especially for use with fungicides, insecticide and nutrients in many situations.

Read the directions for use before using this product.

Approved pursuant to HSNO Act 1996 No HSR002503
See www.epa.govt.nz for approval conditions

LABEL

AGPRO BIG SPREAD ORGANO

Issue Date: 20/03/2018

HAZARD CLASSIFICATIONS

6.1D, 6.4A, 6.9B, 9.1B

WARNING

May be harmful if swallowed, inhaled or absorbed through the skin. May cause serious eye irritation. Avoid contact with eyes and skin. Avoid inhalation of spray mist. May cause organ damage from ingestion at high doses. Avoid contamination of any water supply with product or empty container. Toxic to the aquatic environment. Do not spray over or allow to drift over an aquatic environment.

PRECAUTIONS

APPROVED HANDLER : Not required.

STORAGE: Store in original container, tightly closed and away from foodstuffs. Store in a cool dry well ventilated area, avoiding sunlight and temperatures below -5°C and above 35°C . When stored appropriately this product should show no significant degradation for two years from the date of manufacture. Contact your supplier for information about the use of product that is older than this.

PROTECTIVE CLOTHING: When mixing or applying this product, overalls, boots, gloves and eye protection should be worn.

SPRAYING EQUIPMENT: Apply only with well maintained and calibrated equipment.

PERSONAL HYGIENE: Do not eat, drink or smoke while using. Remove protective clothing and wash hands and face thoroughly before meals and after work.

TRACKING: This product does not need to be tracked.

RECORDS: Record keeping is not required when using this product.

PRODUCT DISPOSAL: Dispose of this product only by using according to the label directions or if this is not possible alternatively contact your supplier for advice.

CONTAINER DISPOSAL: Triple rinse container and add rinsate to the spray tank. Dispose at an approved landfill. Do not burn. Do not use container for any other purpose.

FIRST AID

If swallowed DO NOT induce vomiting. If splashed in eyes, wash out immediately with water. If skin or hair contact occurs, remove contaminated clothing and flush with water. For advice call the National Poisons Centre 0800 POISON (0800 764 766) (24 hours) or a doctor immediately.

EMERGENCY RESPONSE

In a transport emergency call 111, Police or Fire Brigade.

SPILLAGE

Exclude non-essential people from the area. Wear protective clothing and prevent chemical from entering waterways. Absorb spill with inert material such as soil, sand, etc and place in a waste container. Wash area with water, and absorb with further inert material. Dispose of safely to an approved landfill.

SAFETY DATA SHEET

Additional information is provided in the safety data sheet. Phone 09 273 3456 or visit www.agpro.co.nz for a copy.

SHELF LIFE

When stored at temperatures between $8 - 28^{\circ}\text{C}$, this product should show no significant degradation for two years from the date of manufacture. Contact us for further information about the use of product that is older than this.

GENERAL INSTRUCTIONS

AGPRO BIG SPREAD ORGANO is a surfactant/wetting agent used to enhance the spreading and foliage deposition of fungicides, insecticides and nutrients. It lowers the surface tension of the spray solution well below that of commonly used surfactants when used at the recommended rate. It will not give unwanted stomatal infiltration which can cause plant damage through the uptake of solvents and/or excess spray water. Lower surface tension will result in more effective wetting and more uniform coverage on nearly any surface. It will also enhance the amount of product retained on the leaf surface when spraying. It is especially suited to situations where coverage is critical and is particularly suited to low volume spraying and aerial applications where water coverage is a limiting factor. The product has demonstrated good plant safety, however not all plants and spray mixtures have been tested. Before treating larger areas, a small area should be tested and the results observed. Do not use on any ornamental crop including those grown for cut flowers, foliage and nursery plants.

COMPATIBILITY

Compatible with most commonly used fungicides, insecticides and plant growth regulators. Do not mix with spray oils as phytotoxicity may occur. AGPRO BIG SPREAD ORGANO will break down rapidly when mixed with highly acidic or highly alkaline chemicals and poor wetting may result.

MIXING PROCEDURE

AGPRO BIG SPREAD ORGANO should be added last, when the spray tank is also full of water, to avoid excessive foaming. Mix well before using. Check the herbicide label for specific directions.

GROUND & AERIAL APPLICATION RATES

At a spray application rate of below 100L water per ha add product at 100-150ml/100L water.

At a spray application rate of 100-500L water per ha add product at 5-100ml/100L water.

At a spray application rate of over 500L water per ha add product at 25-50ml/100L water.

RAINFALL

AGPRO BIG SPREAD ORGANO is not resistant to rainfall. If rain or overhead irrigation is likely to occur within 5 days after spraying include AGPRO Latex 520 to the spray mix as this will improve rain resistance and wash-off.

WITHHOLDING PERIOD

It is an offence for users of this product to cause residues exceeding the relevant MRL in the New Zealand (Maximum Residue Limits of Agricultural Compounds) Food Standards.

CONDITIONS OF SALE

The use of AGPRO BIG SPREAD ORGANO being beyond the control of the manufacturer, no warranty expressed or implied, beyond that cover under the Fair Trading Act is given by AGPRO NZ Limited regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and AGPRO NZ Limited accepts no responsibility for any consequence whatsoever resulting from the use of this product.
